Look Out For Lotsa Lobo!

Sorry, there's still no news of an ongoing ***Lobo*** series from DC--but don't get too upset about that, because you're going to be seeing as much of Lobo this summer as you would if he did have his own book! DC not only has the conclusion to the current ***Lobo's Back*** series running through July, but they also have a Lobo one-shot and a new Lobo miniseries scheduled to keep fans supplied with a monthly dosage of Lobo from now until the end of the year.

Lobo: Blazing Chain of Love is a new 32-page one-shot written by the fan-favorite Lobo team of Keith Giffen and Alan Grant and illustrated by critically-acclaimed artist Denys Cowan, whose work has appeared in ***Question, Deathlok,*** and ***Green Arrow***. Once again, Lobo is working for Ramona, the hairdresser-skip tracer. His new assignment is to track down a murderess who has hidden herself in the harem of Sultan Algor. Finding her may be a bit difficult, though; according to DC's Patricia Jeres, "The Sultan's harem is the size of New Jersey and the ladies are very lonely. Lonely enough to settle for the likes of Lobo? Will Lobo survive the bounty of feminine wiles? Will he still find his bounty? How much implied sex will DC allow?..."

While the plot of the book deals with matters of love (and lust), DC assures readers that any matters of romance are depicted in a tasteful, non-graphic fashion. The violence, meanwhile, is just as over-the-top as you'd expect in a Lobo story...

Lobo does show some responsibility in this mature-audiences book, though; he does indeed endorse condom use in ***Lobo: Blazing Chain of Love.*** (And no, there has been no talk of any merchandising tie-in concerning this aspect of the plot...)

Lobo: Blazing Chain of Love #1, a self-contained one-shot storyline priced at $1.50, is scheduled for July 30th release.

A month later, DC unveils its latest Lobo miniseries, ***Lobo: Infanticide;*** in a way, this one might be thought of as the thematic sequel to ***Blazing Chain of Love.*** this time, Lobo has to face the problem of all the illegitimate children of Lobo scattered hither and yon across the galaxies. The universe has rejected them--after all, they might have some of dear ol' dad's attributes!--and they blame their father for their difficulties. So, under the direction of Su, one of Lobo's daughters, a hundred Lobo-lings decide it's payback time. They don't want to attack Lobo just anywhere, though; they need him in a certain place at a certain time. To guarantee the proper location, Su arranges for Lobo to be drafted! Boy, if you thought Beetle Bailey made a bad soldier...

Lobo: Infanticide, priced at $1.50 per issue, is a four-issue mature-reader series written by Keith Giffen and Alan Grant. "This project also marks the debut as artist of one of Lobo's creators, Keith Giffen," DC's Patricia Jeres said, "implementing a bold new style, drawing the character for a major series." Look for it on August 27th.

Perhaps the most desirable Lobo collectible of all, though, is the upcoming ***Lobo Statue.*** Randy Bowen, the sculptor responsible for DC's ***Sandman*** and ***Batman*** statues, has designed Lobo based on Simon Bisley's artwork. The 10" high, 10" wide figure comes fully painted and assembled with a real chain. DC warns fans that "production will be limited to the number of initial orders, and each statue will be individually numbered." Fans who are interested in this $125 statue should talk to the folks at their local comic shop immediately; even though the statue won't be available until early November, comic shops must place all orders for the statue by mid-June.

Those of you who want to see more of Bisley's Lobo art will have a couple of special items to get you through. First, there's the ***Lobo Poster,*** featuring our hero in all his ultra-destructive glory; look for this $4.95 release on July 23rd. On August 25th, you can wear your favorite Czarnian whe DC releases the new ***Lobo T-Shirt,*** featuring Bisley's painting from the cover to ***Lobo: The Last Czarnian #1*** silkscreened on a 100% cotton black T-shirt priced at $14.95.

Of course, ***Lobo's Back*** continues through July; the series has been pushed back approximately a month past its original release dates due to production delays. DC's reprint of ***Lobo's Back #1*** should be in comic shops at about the same time as this issue of ***CSN.***

And that's not all that Lobo fans can look forward to! Lobo will also appear in ***LEGION '92,*** as a guest-star in various books, and on the front cover of ***DC Comics' Back-To-School Binder,*** all due out this summer. For a guy who doesn't have his own series, he really gets around!...

The Long Route to R'lyeh

H.P. Lovecraft may be the creator of the Cthulhu Mythos, but he's far from the only writer to have contributed to it. Ray Bradbury, Robert Bloch, Robert E. Howard, Brian Lumley, Colin Wilson, Stephen King--all have, at one time or another, contributed a story to this macabre series. Lovecraft encouraged his friends to write Cthulhu Mythos tales of their own, expanding on the background of the story--and even using thinly-disguised versions of fellow authors as the main characters in their tales. One of Lovecraft's friends and a very active contributor to the Mythos was Frank Belknap Long, whose "Hounds of Tindalos" is such a vital part of the Cthulhu Mythos that many assume that HPL himself was the author!

Later this spring, ***The Hounds of Tindalos*** becomes a two-issue miniseries from Millennium, the publishers of the recent ***H.P. Lovecraft's Cthulhu Mythos*** four-issue miniseries. Once again the Miskatonic Project wages war against the followers of Cthulhu--but this time, they also have to face the hellish Hounds of Tindalos, unleashed by an unwitting human who gave his life (inadvertently, of course) when he opened their gateway into our world.

The Hounds of Tindalos is written by Terry Collins and illustrated by Daryl Hutchinson, Don Heck, and Robert Lewis. Heck, a comics veteran with four decades of experience behind him, was one of the founding artists of the Marvel Universe; his work was recently seen in the pages of ***H.P. Lovecraft's Cthulhu Mythos #3.*** "Heck has captured perfectly the 1920's feel of the book, and has created the dark mood demanded by Lovecraft's work," Millennium publisher Paul Davis said. "This series will take horror fans by surprise."

The Hounds of Tindalos #1, a full-color $2.50 comic featuring a cover by CD cover artist Glenn Southwick, is scheduled for late May release.

Unmasking *Masques*

Editor J.N. Williamson's ***Masques*** horror anthologies have been praised for presenting some of the best in modern horror. Innovation Comics intends to duplicate that horrifying track record in the comics medium in ***J.N. Williamson's Masques***, a 48-page prestige-format comic series edited by Mort Castle.

Masques brings together popular comics illustrators and acclaimed horror short stories; the result is a superb amalgam of macabre words and pictures. ***Masques #1*** leads with "Nightcrawlers," the haunting tale of a Vietnam Vet who can't forget, by Robert McCammon; this story became one of the most unofrgettable episodes of the new ***Twilight Zone*** ever filmed. Other stories in the issue include "Third Rail" by Wayne Allen Sallee; "The Crushing Death" by Robert Weinberg; and an original tale, "A Billion Monstrosities," by Mort Castle and Tim Vigil. Artists contributing to ***Masques #1*** include Daerick Gross, Mark Evants, Ted Naifeh, Mike Okamoto, and Scott Rockwell; Boris Vallejo supplies the cover painting. ***Masques #1***, a $4.95 comic, is scheduled for late June release.

Nexus Finds New Life at Dark Horse

When First Comics went out of business last year, many were worried about the ultimate fate of the First titles--and in particular, **CSN** heard from a number of fans who wanted to know what was happening to **Nexus.** Thankfully, **Nexus** soon found a new home at Dark Horse--and beginning this summer, fans will be able to enjoy the exploits of Nexus in a special 48-page one-shot and a four issue-miniseries.

™ & ©1992 Mike Baron & Steve Rude

Nexus: The Origin can be considered a celebration of sorts; it was ten years ago that *Mike Baron* and *Steve Rude* created **Nexus** for Capital Comics. In July, Baron and Rude present an all-new look at Nexus' origin in an original book. This isn't just a reprint or a Marvel-Saga-style highlights book; instead, it's a full 48-page prestige-format one-shot by Baron, Rude, and inker *Gary Martin*. According to Dark Horse, "Long-time **Nexus** readers will be surprised by some of the material in this origin story, and for **Nexus** neophytes there'll never be a better introduction to the character and his history. Plus, the always lively Nexus letter column returns, and Mike Baron contributes a special afterward!" **Nexus: The Origin**, a 48-page comic, is scheduled for mid-July release.

A month later, Nexus embarks on his first Dark Horse miniseries adventure, **Nexus the Liberator.** Written by *Stefan Petrucha* and illustrated by *John Calimee* and *John Nyberg*, **Nexus the Liberator** takes Nexus to the planet Uyl, where the religious despot Holy Gigo has ordered millions of his subjects killed. Not only must Nexus carry out his duty of eliminating Gigo, but he also finds himself protecting refugees on his ship. Eliminating Gigo might be quite a challenge in itself, though--for it appears that Gigo's claim of divine protection may be true!

According to Dark Horse, "This tale of Nexus' early career takes place just after the events depicted in **Nexus: The Origin**, and leads into the Mike Baron/Steve Rude Nexus miniseries due out in November." *Adam Hughes* contributes the cover to **Nexus the Liberator #1,** a $2.50 comic scheduled for mid-August release.

More Thor For Sure

Thor joins the list of Marvel titles celebrating a landmark issue this summer; in Thor's case, it's **Thor #450,** a 64-page special issue that chronicles the ongoing search for the original Thor--and the search takes the new Thor and Code Blue to Asgard, where they must battle Heimdall himself! **Thor #450** will also feature a reprint of a classic Thor confrontation with Loki from the early **Journey Into Mystery** days. Since it's a celebratory issue, it'll have a special gatefold cover--and you saw how quickly **Captain America #400** (published in the same 64-page gatefold-cover format) disappeared back in March... **Thor #450,** a $2.50 comic written by *Tom DeFalco* and illustrated in the Kirby style by *Ron Frenz*, is slated for July 2nd release.

DeFalco and Frenz are also represented in the bookshelf-format reprint volume **Thor: Alone Against the Celestials.** This 64-page book reprints the stories from **Thor** #s 387-389, pitting Thor against the Celestials. Priced at $5.95, **Thor: Alone Against the Celestials** is scheduled for June 18th release.

Quality Art

SQP fans will be thrilled to hear that the company has four special art projects scheduled for July release, ranging from epic fantasy to high-tech cheesecake. First is *Larry Elmore*'s **Swordsong: Set Three - The Journey Ends**, a six-plate full-color $25 portfolio limited to 2000 signed and numbered sets. SQP's second color portfolio is **Conan Color Classics: Set Four,** a $20 portfolio featuring six color plates by *Doug Beekman*. Again, this portfolio is limited to only 2000 copies; while **Conan Color Classics Set Four** is unsigned, each set comes with a numbered certificate of authenticity. *Jim Balent* supplies seven black and white plates for his $12 portfolio, **Bloodlust: Set Two**. According to SQP, "Each black and white plate features a female as deadly as she is beautiful." The final art offering for July is the second *Sorayama* print, **Kroma;** this $19.95 24" x 36" print (not a poster) features another of Sorayama's sexy robots. As always, be sure to let your local comic shop know that you're interested in any (or all!) of these releases--and tell 'em that you heard about it in **CSN,** okay?...

A Vein Effort

After taking a break for several standalone *Clive Barker* adaptations, Eclipse is returning to the anthology format this June with the release of **Tapping the Vein Book Five,** a 64-page prestige-format comic adapting two Barker tales.

"How Spoilers Bleed," the story of adventurers who hope to steal rain forest land from the natives who live there, is adapted by *Fred Burke* and *Hector Gomez*. "Down, Satan," the story of a man whose construct of hell is even more hellish than the real thing, is brought to comics by *Steve Niles* and *Tim Conrad*. **Tapping the Vein Book Five**, a mature-readers comic with a cover by Les Edwards,, is priced at $7.95.

Holo Hornet

Now Comics has been offering a variety of intriguing extras with their comics recently--and **Tales of the Green Hornet Anniversary Special #1** is no exception. This special issue, starring Britt Sr. in the 1930's, will be polybagged with a special Green Hornet hologram card in each and every copy. *James Van Hise, Sal Velluto,* and *Dell Barras* are the creative team for this story of a party turned deadly as one bizarre trap after another is sprung on the unwitting guests. **Tales of the Green Hornet Anniversary Special #1**, a $2.75 comic, is scheduled for July release.

Then and Now

Some fifty years ago, *Bob Kane* was one of the tyros taking the comics industry in new directions with his innovative work on **Batman.** Today, *Jim Lee* is doing much the same thing with his work on X-Men and his upcoming Image Comics series

WILDC.A.T.S. In July, *Stan Lee* talks with both men about their careers, the comics medium, and more. **The Comics Book Greats Volume Nine: Bob Kane** features almost an hour of conversation between Stan Lee and Bob Kane, two of the greats of the industry; **The Comic Books Greats Volume Ten** brings together the two Lees--Stan and Jim--for an hour-long conversation that includes a special illustration segment on the creation of **WILDC.A.T.s.** Stabur Home Video is releasing both $19.95 tapes in July; let your local comic shop know that you're interested so that you don't miss out!...

A Shady Lane

DC warned us that the ongoing **Eclipso: The Darkness Within** storyline would affect far more characters than just the title hero in each annual, and **Superman Annual #4** proves that they weren't kidding. It's Lois Lane, not Superman, who becomes "eclipsed" by the malevolent lure of Eclipso, and it looks like Superman is too busy to do anything about it, since he's faced with an entire village of Eclipsos. *Dan Vado*, the author of the critically-acclaimed series **The Griffin,** pens his first-ever Man of Steel tale in **Superman Annual #4;** look for it on June 18th.

Lois Lane isn't the only unusual Eclipso doing her evil duty in June: over in **Green Arrow Annual #5,** it's the Black Canary who becomes an Eclipso--and Green Arrow calls on Batman to help him stop her. *Sarah Byam*, the author of the **Black Canary** miniseries, pens this annual; *Trevor Von Eeden* and *Frank Springer* supply the art. Look for it on July 2nd.

The Golden Glider is "eclipsed" in the pages of **Flash Annual #5**--but this issue also features a heaping helping of Flash's Rogue's Gallery as they join forces to pull off a jewel robbery. **Flash Annual #5** is slated for July 2nd release.

Many Marvel heroes have ventured into the future in the company's thirty-plus year history--but when Deathlok is drawn into the future in his first-ever annual, he discovers that the future is quite different than he anticipated... and his new nemesis feels much the same way!

Deathlok Annual #1 introduces Timestream, Deathlok's newest adversary. Timestream intends to make Deathlok the latest addition to his army of machines against humanity. Timestream underestimates his victim, however, and before long, Timestream finds that Deathlok can be almost as much a threat to his plans as humanity is !

Deathlok Annual #1 features the art of *Jackson Guice*, who was the artist on the first two issues of the original **Deathlok** prestige-format limited series. The annual is written by regular **Deathlok** author *Gregory Wright;* look for it on July 2nd.

Three of a Kind

"Dead Man's Hand," the Daredevil-Nomad-Punisher crossover that begins this June, is one of the stranger crossovers in Marvel history; the heroes don't actually work together so much as their paths continually cross. The story is set in Las Vegas, where crime bosses have gathered to divide up the territory that formerly belonged to the Kingpin; a gathering of criminals of this sort naturally attracts the attention of law enforcers, including the aforementioned trio of heroes. It also attracts an assortment of villains, include Chainsaw, the Praetorians, Bushwacker, Slug, Silvermane, the Hand, Deadpool, and more.

Each hero is drawn to Las Vegas for a different reason. The Punisher sees it as an easy way for him to eliminate targets that he would otherwise have to spend a great deal of time tracking down; Daredevil is there to watch over Foggy Nelson, who has been hired by one of the criminal's representatives; and Nomad just happens to be there as he travels across the United States. Since Daredevil and the Punisher have a less-than-amiable relationship, Nomad finds himself caught in the middle, playing the role of mediator--but when the government offers him a chance to clear his record if he'll just eliminate the Slug, he has to evaluate his own involvement in the crime confab.

The nine-issue "Dead Man's Hand" storyline begins in **Daredevil #307** (a June 4th release), written by *Dan Chichester* and illustrated by *Scott McDaniel* and *Chris Ivy*; it continues into **Nomad #4,** written by *Fabian Nicieza* and illustrated by *Patrick Oliffe* and *Mark McKenna* (also a June 4th release); and from there, the action proceeds into **Punisher War Journal #45,** written by *Chuck Dixon* and illustrated by *John Hebert* (a July 2nd release). The storyline continues into the subsequent two issues of each of the three titles, making it a nine-issue storyline that runs throughout the entire summer.

High Caliber Visions

Guy Davis rose to prominence with his outstanding Sherlockian series **Baker Street,** where his linework drew acclaim from critics and fans alike. Now Davis is busy working for DC on a new series--but that doesn't mean that he's left Caliber. In fact, Caliber will be publishing a massive 96-page collection of work from Guy Davis' sketchbook work in **Visions,** which features designs from **Baker Street** as well as figure studies, illustrations, and more. According to Gary Reed of Caliber, Guy's personal favorite, architecture, will be showcased heavily as well as many figures from the Punk scene. **Visions,** a June release, is priced at $4.95.

Exploring the Full Spectrum of Usagi's Exploits

Every issue of the *Stan Sakai*-created **Usagi Yojimbo** features colorful exploits--but once a year, Fantagraphics offers fans an opportunity to see those exploits in full color. This year, **Usagi Yojimbo Color Special #3** features forty pages of full color adventures, consisting of three separate stories, all colored by *Tom Luth*. The first tale, "Fox Fire," stars Usagi and Tomoe Ame in the story of a shape-changing fox; the second, "Space Usagi," is a preview of the upcoming Mirage Comics miniseries; and the final story, "Loxos and Doxos," is the latest chapter of the ongoing Nilson Groundthumper and Hermy storyline. Priced at $3.50, **Usagi Yojimbo Color Special #3** is scheduled for July release.

The Great Bats-by

When fans think of a hero inspired by a bat, they think of Batman, of course. What they may not realize, though, is that Batman was not only inspired by a bat, but he (and his creator, Bob Kane) were also at least partly inspired by **The Bat**--a 1926 novel by *Mary Roberts Rinehart* that deals with a Bat-costumed criminal whose appearance strikes fear in the hearts of everyone!...

"**The Bat** is a story about paranoia and greed and how the two walk together," said *Doug Campbell*, a Hollywood screenwriter and director who will adapt Rinehart's novel for Adventure Comics. "It's about the affluent people in the '20s who made a financial killing without really working for it... Maybe they felt guilty or maybe they didn't give a damn. **The Bat** addresses this issue."

Cornelia Van Gorder typifies the nouveau riche of the 1920's. She is surrounded by signs of her wealth, including a butler and a maid--and she is convinced that they--as well as her boyfriend, her doctor, and others-- are in league with The Bat, a murdering outlaw who targets rich victims like her. Even when her maid and butler are killed, she still feels that the plot is aimed at her... **The Bat** is illustrated by David Wong; Jeff Remmer supplies the cover painting. **The Bat #1**, a $2.50 comic, is scheduled for July release.
